Inspection Services for 2022 Paving
Project.

Total Cost: 50,000

Account Coding: Grant Funding per Town Manager

Other Bidders:	Amount
<u>Sole Source</u>	

Reason for selecting this vendor: The Kercher Group has been
our engineering firm for 20+ years. They do an excellent
job with all paving projects

Contract #: 2022-02

Approved by Council: _____

Contract/Proposal between Town and Kercher Group to do: Inspection Services for 2022 Paving Project.

Purpose of Project and Project Background: Quality control of the contractors work; which includes accurate quantity counts (asphalt, stone, concrete etc.), as well as compaction tests, asphalt temp and overall workmanship.

Background or Party with Whom the Town would sign the Contract: Kercher Engineering is the Town's engineering firm, and has been used for design and inspection for all Town paving projects for more than 20 years. Their inspection services have greatly reduced the final cost of our paving projects. Due to excellent inspection/verification of work and actual quantities of materials used, final project costs have routinely come in under the original proposal.

Time frame to Complete Contract: Start date for the project is expected to begin in early October. Kercher staff will begin project boundaries and limits of construction in mid to late September. The actual paving work is expected to take 23 working days. The Kercher Group will be onsite for all work and involved for approximately 90 days.

Source of Funding: Grant funding per Town Manager.
